

MALAAK AL ZOUBI

AI Developer

Dubai, UAE | malaakbalzoubi@gmail.com | LinkedIn: [linkedin.com/in/malaak-al-zoubi](https://www.linkedin.com/in/malaak-al-zoubi)

GitHub: github.com/malaakb1 | Portfolio: malaak-al-zoubi-portfolio.vercel.app

PROFESSIONAL SUMMARY

AI Developer with hands-on experience in machine learning, data analysis, natural language processing, and generative AI. Skilled in building AI-powered tools, Retrieval-Augmented Generation (RAG) systems, and predictive models using Python, SQL, and modern AI frameworks such as Hugging Face and Stable Diffusion. Proven ability to deliver end-to-end ML pipelines, optimize models, and translate data into actionable insights. Passionate about applying AI to solve real-world problems and contributing to impactful, innovative solutions.

WORK EXPERIENCE

AI Developer | AI Brains June 2025 – Present

- Design and develop AI-powered tools and applications using Python and machine learning techniques to solve real-world business problems.
- Collaborate with a cross-functional team to deliver end-to-end AI solutions, from data preparation and model development to deployment.
- Optimize machine learning models to improve accuracy, performance, and efficiency, while integrating modern AI frameworks and best practices.
- **Key Projects:** AI-Powered RAG Assistant; AI-Powered Legislative Analysis Platform.

PROFESSIONAL DEVELOPMENT & TRAINING

Data Science Fellow | CorrelationOne Oct 2024 – Feb 2025

- Built regression models analyzing advertising ROI, supporting a 20% improvement in customer acquisition (project simulation).
- Engineered SQL queries and Excel functions to resolve null values, achieving full dataset completeness.
- Developed Python automation workflows using Pandas and NumPy, reducing data preparation time by 40%.
- **Key Project:** Food Prices in Syria During the Conflict — data analysis and visualization.

Machine Learning Intern | The Hope International Edu Sep 2024 – Dec 2024

- Developed machine learning models in Python for data analysis and process automation tasks.
- Applied machine learning techniques to extract actionable insights, build predictive models, and optimize workflows.
- **Key Project:** Music Genre Classification — end-to-end ML pipeline built on Spotify audio features.

Lecturer | Google Developers Student Club (GDSC) Oct 2023 – June 2024

- Delivered lectures on Python programming, machine learning, and Arduino, enhancing students' practical knowledge in AI and automation.
- Mentored students through hands-on, real-world projects focused on practical applications of machine learning and embedded systems.
- **Key Projects:** Salaries Data Analysis — Exploratory Analysis of Employee Compensation; Diamond Price Prediction (XGBoost) — Regression Modeling & Hyperparameter Tuning.

EDUCATION

Bachelor of Artificial Intelligence

Zarqa Private University (Transferred)

June 2023 – Feb 2025

- Final Grade: 94.6% (Excellent).

Bachelor of Artificial Intelligence

Irbid National University

- Grade: 97.1% (Excellent).

Oct 2021 – July 2023

TECHNICAL SKILLS

- **Programming & Databases:** Python, SQL
- **Machine Learning & AI:** Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, Retrieval-Augmented Generation (RAG), Regression & Classification Models, Model Optimization, XGBoost
- **AI/ML Frameworks & Tools:** Hugging Face, Stable Diffusion, Gradio, Pandas, NumPy
- **Data Analysis & Visualization:** Exploratory Data Analysis (EDA), Data Visualization, Power BI, Excel
- **Development Tools:** GitHub, Arduino, AI-Powered Tools Development, Automation
- **Soft Skills:** Leadership, Communication, Collaboration, Problem-Solving, Project Management, Teaching & Mentoring

KEY PROJECTS

TransformMe AI – Graduation Project

- Built an AI-powered photo editing tool that automates the masking process by integrating advanced models from Hugging Face and Stable Diffusion.
- Delivered a high-quality, efficient editing experience through a simple and intuitive user interface developed with Gradio.

Tasreefah.com – Co-Founder (Jan 2024 – Sep 2024)

- Co-led Tasreefah, an award-winning tech startup that reduces food waste through a marketplace for near-expiry products.
- Led business model creation, secured key partnerships, and guided platform development.
- Won funding at the 2024 Food Waste Hackathon sponsored by the World Food Programme (WFP).

CERTIFICATIONS

IBM Professional Certificate in Data Science | Coursera

Sep 2023 – Aug 2024

- Completed a comprehensive program covering Python, SQL, data analysis, machine learning, and statistics.
- Gained hands-on experience with data manipulation, visualization, and analysis tools.
- Developed a strong understanding of algorithms and machine learning models.

VOLUNTEERING EXPERIENCE

Field Specialist | Molham Volunteering Team

Nov 2024 – Mar 2025

- Assisted in the sponsorship and support of orphans, ensuring their basic needs were met and their well-being maintained.
- Monitored and evaluated medical sponsorships to ensure beneficiaries received appropriate healthcare and treatment.

Arduino Instructor | Nahno

Aug 2023 – Dec 2023

- Delivered lectures and hands-on workshops on Arduino programming, covering the fundamentals of designing and implementing electronics projects.
- Guided participants in building interactive devices using sensors, motors, and other components.

LANGUAGES

- **Arabic:** Native
- **English:** Proficient (IELTS 7.5)
